

## A Video Message from Mark Eubanks, Our New CEO

**Mark Eubanks**  
President & CEO

It's officially official. **Mark Eubanks** is the new president and chief executive officer of The Brink's Company, and **Doug Pertz**, who had served as president and CEO since 2016, is now executive chairman of the board.

"It's been a privilege to lead this iconic company as CEO for the last six years. Our team delivered outstanding results and created a strong base for our future strategy," said Pertz. "Mark has a proven track record and personifies the values that are essential for a leader of this company, and I look forward to seeing the business continue to transform and thrive under his leadership."

"Doug has been an incredible leader and positioned Brink's for future success. I am honored to be his successor and build on this momentum," said Eubanks. "I look forward to working with him, the board and the entire Brink's team to pursue the growth opportunities before us. Our top priorities include operational excellence and innovation. We'll also continue to strengthen our culture of results-driven execution and relentless customer focus."

## Information Technology Wins Team Spirit Award

Congratulations to the Information Technology team for winning the first 2022 Homecoming Spirit Award. **Rohan Pal** and several IT team members were on hand to accept the honor and trophy from HR leaders **Karen Ehlermann** and **Rob Hess**. The IT team won for their enthusiasm, participation and overall support for the Homecoming week's activities to mark the return to the COSC for many colleagues. Thank you to all the teams for their time and participation in Homecoming Week.

**Welcome back COSC!**

## Cyber Hacks: Smishing & Vishing is still Phishing

Smishing and vishing are two types of phishing fraud that use SMS (smishing) and voice (vishing) to trick people into giving up money and / or personal information.

Smishing (SMS phishing) uses text messages and Vishing (voice phishing) targets users of Voice over IP (VoIP) services such as Skype. A vishing scam often starts with an automated message, telling the recipient that they are the victim of identity fraud.

### How to avoid smishing and vishing attacks

- Refuse to take the bait and never respond to the text message that is unusual and unexpected.
- Never open an attachment or click on links to access messages you're not sure about.
- Never give out sensitive Information from incoming calls/texts.
- Search the website of both the number and the message content you receive.
- Complete your annual security awareness training on the OKTA homepage under the Inspired eLearning app (iLMS) to stay up to date on emergent cyber security new attack trends.

## Insights: May is Asian American & Pacific Islander Heritage Month

While the concept of a week or month dedicated to the celebration of specific racial communities isn't new, solidifying May as Asian American and Pacific Islander Heritage Month took over 15 years and came down to the tenacity of one woman, **Jeanie Jew**.

To learn more about Jeanie and Asian American & Pacific Islander Heritage Month, check out this week's Insights Lesson via MS Teams and the Brink's Proud app!

# Brink's Career Opportunities
