

Join Us! Special All-ERG Event - Collective Perspectives

Golda Rosheuvel

We are excited to announce that we are bringing **all employee resource groups** together for a special event, **Collective Perspectives** featuring film and theater actress **Golda Rosheuvel** and CNN Journalist **Lisa Ling**.

During the event we will watch a pre-recorded video conversation between Golda Rosheuvel, who currently stars as Queen Charlotte on the Netflix series *Bridgerton* and Lisa Ling. Lisa and Golda will have a candid discussion about Golda's experience being a queer, bi-racial woman in today's society and bringing one's whole self to work.

Lisa Ling

We will continue the conversation with a panel discussion **featuring representatives from all five Brink's ERGs** on authenticity, allyship, representation and personal experiences.

Please check your email for the invitation and plan to attend this special D&I event:

- **Wednesday, November 16**
- **12 p.m. CT, 1 p.m. ET**
- **WebEx Event**
- **This event will not be recorded.**

The Importance of Gratitude - Giving & Receiving

Mark your calendar for this **Friday, November 18 at 12:00 p.m. CT** for a Gratitude Event hosted by The Women's Resource Network!

This one hour seminar will focus on "The Importance of Gratitude - Giving & Receiving."

We will learn about the science behind gratitude and how understanding the research can help increase meaningful relationships in all areas of life.

Watch your email for the WebEx invite!

This Week @Work

Insights: The Strength & Struggles of Women Veterans

Women are tightly woven into the fabric of American military history. In fact, women have been serving their nation in some capacity since the Revolutionary War.

Their roles have evolved through the years to include more and more inclusivity and autonomy. **Today, more than 200,000 women are in active service** and many of our country's civic and governmental women leaders are also veterans. In the United States currently, more than two million female-identifying veterans bring unique skills, experiences, and leadership to civilian life.

Check out Insights to learn more! Access Insights via the **Brink's Proud App, MS Teams Channel, or OKTA.**

Cyber Hacks: What is Credential Harvesting

Credential harvesting uses social engineering techniques to obtain legitimate user ID's and passwords allowing access to a network. Techniques include an attacker sending an email with a link to a spoofed website that looks legitimate, or a person posing as an authoritative resource to fraudulently obtain a user's ID or password.

Credentials can be used for subsequent attacks where the goal is to gain access to systems or network resources, or they can be monetized by taking over bank accounts or simply selling the information on the Dark Web.

Check out the video below for more information on credential harvesting!

Security Tips:

- **Security Awareness:** Brink's provides cyber security awareness and training with the Inspired eLearning (iMLS) OKTA platform.
- **Multi-Factor Authentication (MFA):** Brink's utilizes OKTA for MFA, and it provides an additional layer of security to our digital privacy.
- **Report Phishing:** Report suspicious emails using the Report Phishing button in Microsoft Outlook.
- **Password Phrase & Reuse:** Always use a complex password and avoid password reuse across your personal or work accounts.
- **Password Sharing:** Avoid writing down your password.
- **Actively monitor failed authentications:** When monitoring login activity in your accounts, look for any type of discernable patterns in these failed authentications and track them over time.

Brink's Career Opportunities

Imagine the Possibilities...

To browse and apply to internal job opportunities in Workday:

- Go to <https://brinks.okta.com> in your internet browser
