Thinking Resilience: Handling Customer Compliance Inquiries

It is critical that the Brink's Customer Compliance team handle all IT Compliance and Security related customer requests to ensure that:

- Responses are current and accurate
- We do not share potentially confidential or sensitive information
- Information is only provided to appropriate customers

All IT Compliance or Security related customer requests should be directed to the Customer Risk Compliance mailbox. Brink's Customer Compliance Team will respond timely or provide an ETA if the request cannot be completed within a reasonable timeframe.

Please help us reinforce this message if you become aware of anyone other than IT Compliance responding to these types of requests.
