

New Roth Savings Strategies: Attend Next Event

T.RowePrice 

Starting in August, you will have the option to save with Roth after-tax dollars in your 401(k) Plan.

Let T. Rowe Price help you decide which options are better for your situation: before-tax contributions or after-tax Roth contributions.

To learn more about Roth and other savings strategies, use the link in the quick links section below to register for a live education webinar during one of the following times:

• *Thursday, August 10 at 11 a.m. ET or 3 p.m. ET*

Use the QR code to log into your account and learn more!

You can visit www.rps.troweprice.com anytime throughout the year for more information about your account, to make changes, or to enroll.

You can also call T. Rowe Price at **800-922-9945**.

Trainers, Take Your Best Shot!

Last week, Brink's Regional Trainers traveled to Texas for firearms training and certification with the National Rifle Association (NRA).

Regional Trainers support the Operations organization with all learning programs, including firearms training for drivers, messengers, turret guards and other authorized team members.

Watch the 1-minute video highlight clip of the exciting week as Trainers hone their skills to provide the best support for Operational success.

Today is the Last Day for Mid-Year Conversations

Thinking Resilience: Plan to Prepare Your Branch

Mid-Year Capability Assessments begin this week

It's time for the **Global Business Resilience Team** to send the **2023 Mid-Year Capability Assessment** to all branches to assess the preparedness of our business operations.

Please note the following:

- A survey link will be provided through an email on **August 4** and this survey is expected to be completed by **August 25**
- Only **one response** per facility, by the branch manager or designee, is required
- The survey takes approximately **8 minutes** to complete
- The survey allows branches to **identify key areas** not mentioned and make recommendations where needed
- Results of each survey are consolidated into a report developed by the Global Business Resilience Team that is shared with the Senior Leadership team
- Reports help leaders make **informed decisions** about how best to improve our preparedness capability

Cyber Hacks: What is Spoofing?

Spoofing is term that involves a cybercriminal masquerading as a trusted entity or device to get you to do something detrimental that is beneficial for the hacker.

Email spoofing occurs when the sender forges email headers to display a fraudulent sender address, which most users take at face value. **Website spoofing** is when scammers make a fake website that resembles a legitimate one. Hackers build these websites to steal your login details and drop malware onto your computer.

How to Prevent a Spoofing Attack:

- Check before you click
- Avoid clicking on links or attachments from unfamiliar sources
- Make sure your email password is strong and complex
- Use strong antivirus protection in your personal laptop device
- Don't give out personal information online

Insights: Development of the Self

Establishing and furthering the wellness of our interior and exterior selves is an expansive aim. It takes a lifetime to learn the intricacies of caring for our own physical, spiritual, and mental health.

It takes the same rigor and attention to foster a sound, productive approach to our intellectual, social, and financial health, too. All of these contribute to the overall development of the self.
