

## What a Moon-Day!

### Capturing the Exciting Total Solar Eclipse of 2024

More than 30 million people in North America were in the path of totality today and had the opportunity to see the moon fully block out the sun in the total solar eclipse. An additional 150 million people were able to see a partial solar eclipse, with the path being 108 to 122 miles wide. The total eclipse first appeared along Mexico's Pacific Coast at around 11 a.m. PDT, then traveled across the U.S., from Texas to Maine, and into Canada.

Numerous Brink's team members were in the path of totality and shared a few snapshots and thoughts on the day. "What an exciting experience to share with the team," said Aissel Crichlow, Communications - Canada. "We only had partial totality in Toronto, and the moment was tremendous!"

Katy Carter, Compensation Analyst, said "Experiencing a total solar eclipse for the first time was truly awesome. One minute the sky started to turn dark, and then it was as if the sun had set, yet it was directly above us. The clouds parted, the wind stopped, and everything seemed to be still. What an amazing experience!"

You can still share your total solar eclipse photos with us at [one.brinks@brinksinc.com](mailto:one.brinks@brinksinc.com) - and if you would like to use your eclipse photo as your Earth Day photo contest entry, please specify in your email.

## Share Your Best Pictures of Nature for Earth Day

Enter to win gifts cards and share nature's beauty in our annual photo contest

2023 Honorable Mention  
Photo Winner:  
Natasha Redding, Finance  
& Accounting Specialist

Join us in a celebration of planet Earth! **April 22 is Earth Day** and we invite you to enter our Earth Day photo contest. Choose wisely and share your best nature photo in this popular contest that had more than 200 entries last year. You may **submit one photo** to showcase the beauty of nature.

To enter, email one photo to **one.brinks@brinksinc.com** with the subject line "Earth Day Photo Contest" or submit via the One Brink's App – click Share Your Story from the homepage to submit a photo. Please include your name and department or branch location. You may also include the photo's title (if applicable) and any details about the location of the photo. Gift card prizes will be awarded for **First Place \$100, Second Place \$75, Third Place \$50, and Honorable Mention \$25.**

All entries must be submitted by **5 p.m., CT on Monday, April 15.** One photo per entry. Winners will be announced on Earth Day, Monday, April 22. Good Luck!

## Strategy Focus: **Talent:** *Position our team to win*

One of our four strategic pillars is **Talent**, which is how we will establish a workplace and employer brand that prioritizes talent to ensure we have the best people and perspectives to achieve our goals.

This week, we are featuring two new team members joining Brink's Human Resources. **Amy Dowdy** is our new **senior vice president of Human Resources - North America and Mexico**. Amy comes to Brink's most recently from Builders FirstSource where she was SVP of talent management and corporate HR. Amy has significant experience positioning HR teams to drive growth and organizational performance with transformational HR programs and processes.

**Amy Dowdy**

**Natalia Johnson** is our new **vice president of Field Human Resources** for Brink's North America. Natalia brings more than 15 years of experience in progressive HR leadership roles in consumer-packaged goods, retail, and power management industries. Most recently, she has served as Vice President of Corporate HR for Advance Auto Parts. Previously, Natalia held several senior HR leadership roles for PepsiCo and Eaton Corporation.

**Natalia Johnson**

*Please join us in welcoming to Amy and Natalia to Brink's!*

*Watch for more features next week on our talented team members!*

## Take 5 For Safety: Seat Belts Help Prevent Injuries

Wearing a seat belt is the single most effective way to prevent serious injury in a crash. Seat belts hold you in place, if you stop quickly or swerve to avoid another vehicle or object, you're held firmly in your seat. You're held securely where you can easily reach the steering wheel and brakes, and you can avoid losing control of the vehicle.

### Seat Belts Worn Correctly Make a Difference

Just as important as the act of fastening a seat belt is making sure that it is worn properly. A seat belt is most effective when it is worn with lap and shoulder belts in the correct places - across your chest and away from your neck, and the lap belt should be secured tightly over your upper thighs/hips.

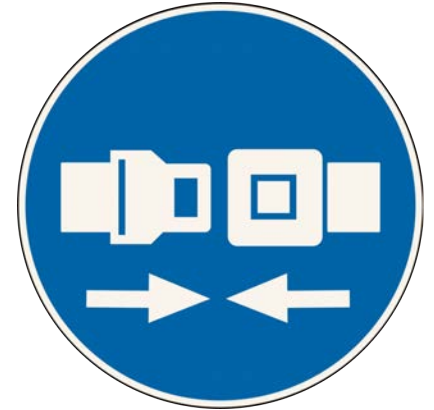

### Seat Belts Keep You Alive!

One way to ensure your personal safety is to always wear your seat belt when the vehicle is in motion.

In a crash, your seat belt keeps you:

- Securely behind the wheel where you can control the vehicle
- From being thrown against other passengers, the steering wheel or the windshield
- From being ejected from the vehicle

***Our U.S. Safety team shares weekly tips and advice to keep everyone safe! See more on the One Brink's mobile app under "Safety & Security."***

***Just one click and you go home safe every day!***

- Jacksonville, FL - Cash Supervisor
- Charlotte, NC - Cash Supervisor
- Charlotte, NC - Cash Manager

## BGS Openings

- Springfield Gardens, NY - Manager Import/Export Operations
- Springfield Gardens, NY - Director of Security

## Cyber Hacks: Watch Out for Spam

Spam is the electronic equivalent of 'junk mail'. However, spam is more than just annoying, it can also be dangerous. Spam can include malicious links that infect your computer with malware.

### **Useful tips to protect yourself against spam:**

- Attackers often use spoofed email addresses (email addresses that appear to come from a trustworthy source) to trick the recipient.
- Don't click any links or attached files, including unsubscribe links. Spammers sometimes include these links to confirm that your email address is legitimate, or the links may trigger malicious webpages or downloads.
- Always report suspicious emails using the Cofense Report Phishing button located in your Outlook toolbar. By taking this small action, the correct department will be alerted and will put controls in place to avoid further Spam emails!
